

The Nordic-Baltic Maritime Forum: Helsinki

23 - 26 March 2026 | Finland

Teamwork: How Nordic-Baltic maritime innovation is rising to the global environmental sustainability challenge

Spanning a week of engaging, informative, and dynamic activities, the Forum's aim is to bring international industry stakeholders to Helsinki to learn firsthand about the region's strong maritime capabilities, technological excellence, and proactive approach to innovation and sustainability.

The Forum will highlight innovation in marine energy (conventional and alternative fuels), shipbuilding and technology, and ports and terminals, with a key focus on Finland's contributions to these sectors.
